

## RELEASE FORM

Catopia will do everything possible to ensure your pet's health during its stay. We require a current certificate of vaccinations from your veterinarian for FVRCP (upper respiratory). To help reduce the risk of fleas, please use Advantage/Frontline or similar product on your cat prior to its arrival.

Due to the nature of boarding, it is impossible to contain all germs. Catopia will not be held responsible should your cat catch a cold or flea.

Should your cat require medical treatment, Catopia will call your personal veterinarian and/or emergency contact for instruction. If necessary, we will transport your cat to an appointment for a \$10.00 fee. If this is not possible, we will use Willamette Valley Veterinary Clinic in Keizer, Oregon or the Salem Veterinary Emergency Clinic P.C. after hours. All expenses will be the cat owner's responsibility at time of check out.

I have read and agree to the above statements.
